VENUE

DEALER ePROCESS

The crossover with urban hustle.

VENUE SEL in Scarlet Red Pearl

Check out its chiseled angles, cascading mesh grille or available two-tone roof – and Venue's attitude is obvious. Its swagger is the product of smart technology, safety innovations and savvy designs served in three trim levels – SE, SEL or Limited.

Step inside, and Venue plays host with seating for five and party favors like Apple CarPlay® and Android Auto™. Use the familiar icons on Venue's standard 8" touchscreen display or the voice command button on your steering wheel to access your smartphone's playlists, maps, text messages and more.¹

Ready to hit the road? Your Venue is, too, with a fuel-efficient Smartstream 1.6L 4-cylinder engine and the availability of Drive Mode Select to customize your driving dynamics. Choose Normal, Sport or – when the road is slippery – Snow mode for enhanced traction control.

Got cargo to carry or gear to pack? Venue offers the flexibility of 60/40 split fold-down rear seats, and an adjustable two-level cargo floor is also available. Slide open the available power sunroof, and Venue feels even more spacious inside.

¹Apple CarPlay® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ²Safety features vary by trim level. For details, refer to the Features chart in the back of this brochure or visit HyundaiUSA.com. ³Forward Collision-Avoidance Assist with Pedestrian Detection (FCA) helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles and pedestrians under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. ⁴Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ⁵It is the driver's responsibility to remain alert at all times. Driver Attention Warning is only a warning to inform the driver of a potential lack of attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for details and limitations. ⁶Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region when traveling over 20 mph. There are limitations to the function, range, detection and clarity of the system. Do not rely completely on BCW and be sure to use proper lane changing procedures. BCW may not detect every object or vehicle and will not prevent accidents. Rear Cross-Traffic Collision Warning (RCCW) is active when the vehicle is in reverse gear and operating at low speeds. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCW. Always look over your shoulder and use your mirrors to confirm rear clearance. See Owner's Manual for details and limitations. ⁷To qualify for 2021 TOP SAFETY PICK, a vehicle must earn good ratings in the driver-side and passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and an acceptable or good headlight rating. For details visit www.iihs.org.

Expand your safety zone.

Safe driving is all about being prepared. The 2022 Venue is ready with SmartSense, a suite of advanced safety features designed to help prevent accidents from occurring in the first place.² To help keep you aware of potential hazards in front of you, there's Forward Collision-Avoidance Assist with Pedestrian Detection.³ Whether it's a slowed vehicle in your path or a pedestrian walking into the road, you're alerted to trouble ahead. If necessary, emergency braking is automatically applied to help avoid a collision.

Should you begin drifting outside of your lane without signaling, Lane Keeping Assist alerts you and actively engages your Venue's steering, nudging you back into your lane.⁴ If fatigue or inattentiveness is detected in your driving behavior, a feature called Driver Attention Warning alerts you that it may be time to take a break from driving.⁵

Beyond these standard features, Venue is also available with Blind-Spot Collision Warning and Rear Cross-Traffic Collision Warning, which act as extra sets of eyes.⁶ Venue's core safety engineering starts with a body constructed of advanced high-strength steel and zones designed to absorb and disperse impacts, helping to protect you and your passengers inside the cabin.

Hyundai SmartSense Technologies

2021 Hyundai Venue has the lowest 5-Year Cost to Own in its class by Kelley Blue Book's KBB.com.¹

¹2021 model-year vehicle's projected cost to own for the initial five-year ownership period is based on the average Kelley Blue Book 5-Year Cost to Own data, which considers depreciation and costs such as fuel and insurance. For more information, visit www.kbb.com.

VENUE Limited in Black Cloth

Packed for adventures, large and small.

We created Venue to be a crossover that packs a whole lot of living into a small footprint. And does it with style. Step inside, and you'll feel as if Venue is an extension of your personality. Like you, it's totally plugged in. You can connect your devices using USB, auxiliary and 12-volt ports, and control many of their functions from the large touchscreen display located front and center.

Like you, Venue knows how to be comfortable in different situations. Whether it is hot or cold outside, an available automatic temperature control keeps the cabin at your preferred temperature. Heated front seats are also available to take the chill off.

And like you, Venue is organized. Hyundai designers studied all of the gear you carry, then created innovative storage solutions to help keep it concealed. With the available two-level cargo floor in the upper position, you can securely stow your stuff and still have lots of cargo space available for the things your crew of passengers brings along.

So now that you've put everything in its proper place, it's time to put yourself in the proper frame of mind. Tap the touchscreen display to call up your favorite tunes from the playlists on your smartphone, then enjoy how great your music sounds on Venue's available 6-speaker audio system.

Stay connected from...wherever.

Download the MyHyundai app, and Hyundai BlueLink® transforms it into a remote control that lets you unlock your Venue Limited's doors and start the engine before walking out of the house.¹ With your Amazon Echo® or Google Home™ device, you can use voice commands to set Venue Limited's cabin temperature from the comfort of your couch or kitchen before you drive.² BlueLink's Guidance package lets you search for addresses or points of interest on your smartphone, then download the driving directions to Venue Limited's navigation system before you slip behind the wheel.³

Then there's BlueLink Connected Care. Like all BlueLink packages, it's complimentary for your first three years and offers exceptional peace of mind. If you're in an accident and the airbags deploy, your Venue automatically calls for help in a heartbeat.⁴ You can also push the SOS button on your rearview mirror for emergency assistance 24/7, 365 days a year.⁵ Visit HyundaiBlueLink.com for more information on the complete list of innovative features BlueLink puts at your fingertips.

Automatic Emergency Assistance

BlueLink Connected Care offers 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where airbags deploy.

On-Demand Diagnostics

Run vehicle diagnostics from your MyHyundai mobile app, report issues at the press of a button and receive maintenance reminders or Monthly Vehicle Health Reports by email.

Hyundai Car Finder

Our Car Finder smartphone app feature helps you find your way back to your Venue after a day of downtown shopping or an evening spent cheering on your favorite team.

Remote Vehicle Controls

Use your smartphone, home assistant or wearable device to remotely start your Venue's engine, lock/unlock the doors, set the cabin temperature you desire, and more.

Safeguard Alerts

Proud parent of a teenage driver? BlueLink lets you set geofence, curfew and speed alerts so you can relax when your loved ones are behind the wheel.

Connected Care Service Link

With BlueLink, it's easier than ever to schedule your vehicle for routine maintenance or service – from the driver seat of your Venue, or using your MyHyundai smartphone app.

Interior Colors

¹Venue Limited 2022 models come with 3 years of the BlueLink Connected Care, Remote and Guidance (factory-equipped navigation required) packages. All trials require an active BlueLink subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases, and is transferable to subsequent owners subject to the Terms and Conditions. Only use BlueLink and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit HyundaiUSA.com or your authorized Hyundai dealer. Remote engine start requires the BlueLink Remote package and a vehicle equipped with push button start. ²Requires BlueLink Remote package and vehicles equipped with automatic temperature control. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Assistant and Google Home are trademarks of Google Inc. ³Requires BlueLink Guidance package and vehicles equipped with navigation system. ⁴BlueLink agents will contact existing emergency service responders. ⁵Requires active BlueLink subscription with Connected Care package. ⁶EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition.
